

Make Sure You're Properly Protected

BUYER ALERT >>

Changes at home?

Have a new dog? Turned your basement area into a family room? Installed home alarm systems? Have you acquired a valuable art object or antique? Do you have a son or daughter who will be a new driver soon?

A yes to any of these questions can make a significant difference in your insurance situation!

Business in the home?

Your basic homeowners policy liability coverage specifically excludes a home business. Also, there is only \$2,500 of coverage for in-home business property (equipment, desks, bookcases, etc.) Business property is only covered for \$250 when it is out of the home.

Keep us posted!

We want you to have to have the proper coverage at all times. Let us know if you have any major changes like the ones discussed here.
